Techniques to learn spelling

Olive Hickmott, a co-founder of 'Seeing Spells Achieving', will demonstrate a simple technique used by many children and adults, to help them overcome their difficulties with words. Although this is a commercial enterprise we think it is useful to see what is out there and to see what other tools there are to help us. You can find out more by looking at Olive's website www.seeingSPELLSachieving.com

The session is for parents, teachers, teaching assistants and children.
